Manage list of My Video Providers to search into from compatible streaming video providers, select your favorite channels to create your custom favorites channel list, choose the default OnePass recording options, select how you'd like you My Shows to be sorted (by date, or name), managed Autoplay Next Episode options, mange Video in menu background options, manage settings to Extend Live Recordings, and manage Thuuz Ratings

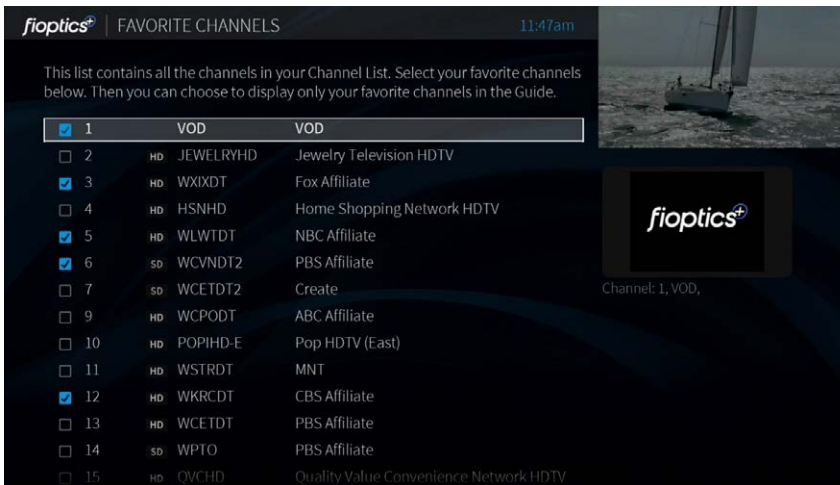

- **My Video Providers:** Choose which video providers (like Netflix) are used when searching or creating a OnePass.

**altafiber**  
elevating connection

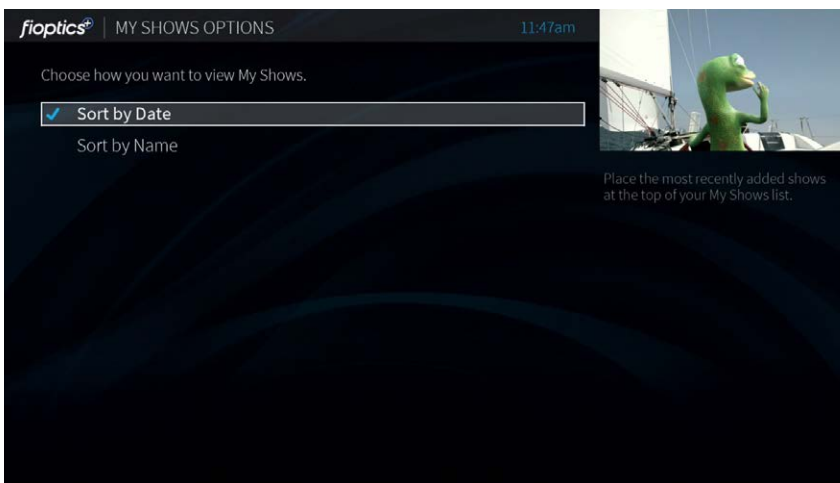

- **Favorite Channels:** View your list of favorite channels.

- **OnePass & Recording Options:** Set default OnePass and recording options to ease OnePass recording set up.

- **My Shows Options:** Choose how to sort your My Shows catalog, by date or by Name.

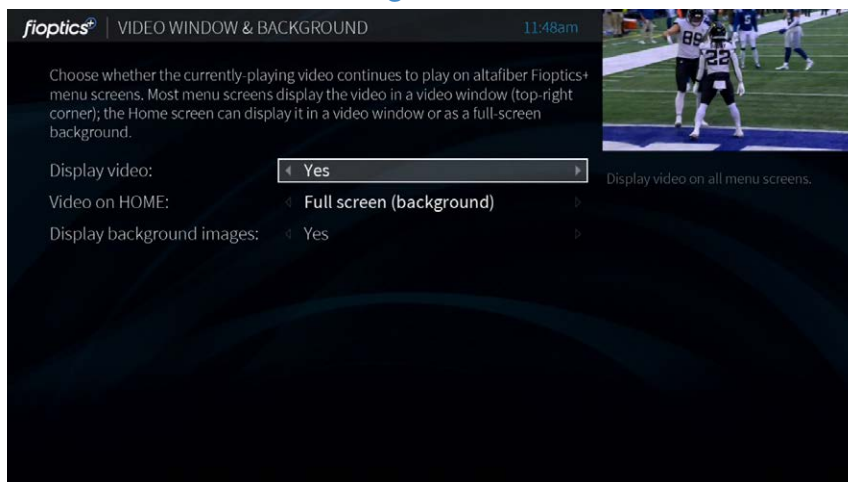

**altafiber**  
elevating connection

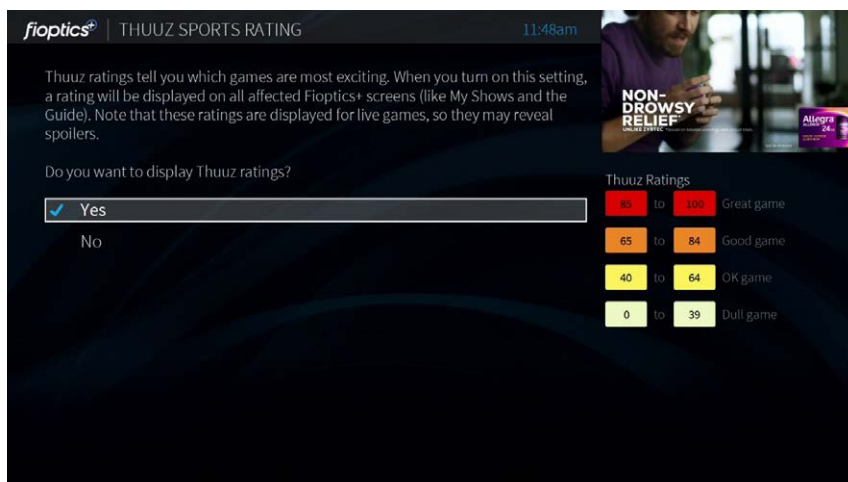

- **Autoplay Next Episode:** Choose whether to allow the next recorded episode in a series to begin playing automatically when the current one ends. If you turn this option off, the countdown will no longer appear, and you will need to select PLAY in the Auto Play panel to start the next episode.

- **Video Window & Background:** See *Video window & background*.

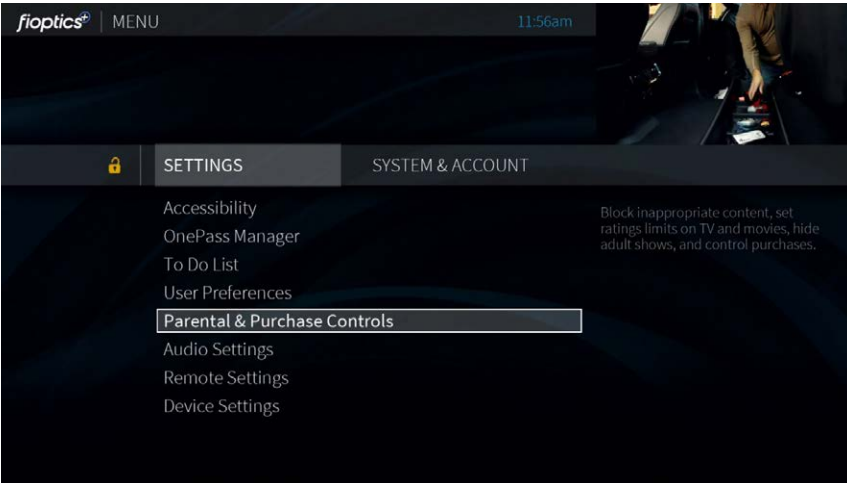

- **Thuuz Sports Ratings:** Choose whether to display Thuuz excitement ratings for sporting events.
