Nonrecurring charges apply for all applicable components regardless of when a PVC/LAN is installed.

Special Construction charges may apply

Expedite Charge, per order: \$ 1,500.00 USOC: CX4GX

Design Change Charge, per order: \$ 100.00 USOC: H28

Service Date Change Charge, per order: \$ 100.00 USOC: OMC

Design Management Charge, per request circuit level moved: \$1,150.00 USOC: PCC10

Circuit Identification Charge, per occurrence: \$ 300.00 USOC: NRTAG

## 2. DESCRIPTION:

2.1 Cincinnati Bell Ethernet Service is an end-to-end high-speed data transport service which customers use for LAN interconnection and/or high-speed Internet access.

2.2 Committed Information Rate (CIR) is the guaranteed bandwidth amount across the circuit. The Quality of Service (QoS) optional feature enables the Customer to specify various levels of priority for their traffic, so that time sensitive applications such as voice or video can be granted higher priority than other types of data.

2.3

2.3 At the request of Customer CBT will interconnect one or more additional LANs owned by Customer to the LANs interconnected pursuant to this Tariff so long as such additional LANs are of the same type as the LANs interconnected hereunder. (e.g., An Ethernet LAN may only be extended to another Ethernet LAN but may be at a different speed.)

2.4 Customer may move the location of its Cincinnati Bell Ethernet Service to a location where sufficient central office capacity and outside plant facilities are available and retain the current monthly rates, but initial nonrecurring charges will be reapplied. Termination charges are applicable if Customer terminates because of a move to a location where sufficient central office capacity or outside plant facilities are not available.

2.5 Customer has the option of purchasing route Diversity. There are 3 types:

- Diverse Route – Same Central Office. Separate routes from the Customer premises to the Central Office.
- Diverse Central Office – Shared Central Office – Separate route from Customer premise passing through the serving Central Office and terminating in an alternate Central Office.
- Diverse Central Office – Separate path to separate central offices.

2.6 Customer has the option of providing their own premises Equipment or Purchasing the Premises Equipment from the Company. Customer has available option of purchasing redundant Premise Equipment if the Customer has purchased Premise Equipment from the Company. Customer has available option of purchasing Redundant Premise Power from the Company.

THIS CINCINNATI BELL SERVICES AGREEMENT IS SUBJECT TO CINCINNATI BELL GENERAL TERMS AND CONDITIONS. BY SUBMITTING AN ACCESS SERVICE REQUEST, CUSTOMER ACKNOWLEDGES THAT CUSTOMER HAS READ, UNDERSTANDS, ACCEPTS AND AGREES TO BE BOUND BY ALL SUCH TERMS AND CONDITIONS.

### 3. SERVICE AND RATES

3.1 In addition to the Service Prices, Customer will incur any and all charges that may be mandated by any regulatory Commission with jurisdiction over Cincinnati Bell or CBES Ethernet Service .

3.2 If Customer cancels, in whole or in part, any requested addition, rearrangement, relocation or other modification to CBES Ethernet Service prior to completion thereof, Customer will reimburse Cincinnati Bell for the actual time and material expenses incurred by it in connection with such modification prior to Cincinnati Bell's receipt of notice of cancellation; provided, however, the amount of such reimbursement will not exceed the service, construction, installation, termination and other charges for which Customer would have otherwise been responsible.

3.3 Access Order service dates for the installation of new services or rearrangements of existing services may be changed, but the new service date may not exceed the original service date by more than 30 calendar days. When, for any reason, the customer indicates that service cannot be accepted for a period not to exceed 30 calendar days, and Cincinnati Bell accordingly delays the start of service, a Service Date Change Charge will apply. If the customer requested service date is more than 30 calendar days after the original service date, the order may be canceled by Cincinnati Bell and reissued with the appropriate cancellation charges applied unless the customer indicates that billing for the service is to commence.

3.4 If nonrecurring charges associated with the installation of CBES Ethernet Service are waived and the CBES Ethernet Service is then terminated prior to the expiration of the Initial Term, the Customer will become liable for payment of the waived charges.

#### 4. TERM

4.1 CBES Ethernet is available for a minimum term of 12 months, or under a term payment plan of 24, 36, 48, 60 or 84 months. If a Customer terminates a service, without cause, prior to the expiration of the term, the Customer will pay to Cincinnati Bell a termination charge equal to all remaining amounts due or to become due, including but not limited to all monthly charges for which Customer would have been responsible if the Customer had not terminated prior to the end of the applicable 12, 24, 36, 48, 60, or 84-month term payment plan.

4.2 The initial term for the individual services covered under this Supplement shall be specified in the applicable Access Service Request.

4.3 Following expiration of the term of a service covered under this Supplement, the service will automatically renew on a month-to-month term at the then-current rate in the rate schedule, unless either party provides written notice to terminate at least thirty (30) days prior to expiration of the initial or any renewal term.

#### 5 . OUTAGE ADJUSTMENTS

5.1 An interruption of service will start when an inoperative CBES Ethernet Service is reported to Cincinnati Bell and end when the service is operative. In any month, as a result of an interruption or series of interruptions, the total credit per rate element of the

interrupted service may not exceed 100 percent of the monthly charge for that particular rate element and are the complete remedy to the Customer for service interruptions.

5.2 Any service interruptions greater than 8 consecutive hours will result in a credit equal to 1/30 of the applicable monthly charge for the service involved. The same credit will apply for each additional 8-hour period that the service remains inoperable.
